

## Hot Rinsing and Drying Line HSE-2800

High pressure wire cleaning (rinsing) with hot water before drawing  
Including high efficient cold and hot air drying system  
Automatic tank fluid level and temperature control combined with automatic refilling  
Control and monitoring features for a safe production process  
Almost entire machine processed out of durable stainless steel

---

### Technical specifications

Wire diameter (low carbon)	max. 10,0 mm (greater on request)
Wire diameter (high carbon)	max. 10,0 mm (greater on request)
Wire passing speed	max. 4,0 m/s
